

Nightscaping® INTEGRA-Liter GD-0402

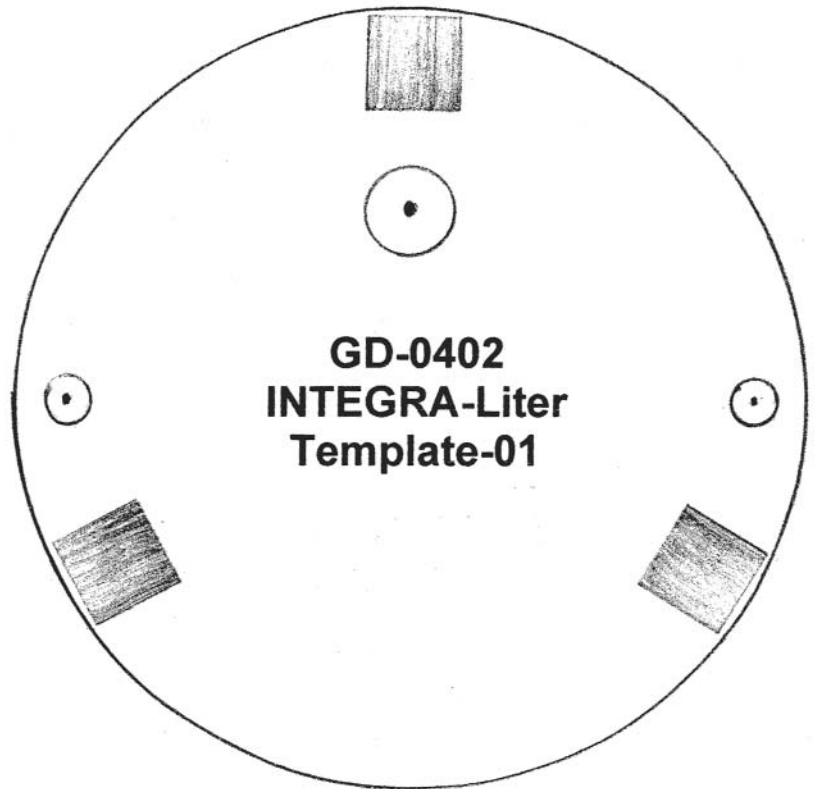

Use the Nightscaping® INTEGRA-Liter as a ground mounted pathlight, a wall sconce with a 360° spread, or on handrails and ledges that require specific safety lighting. The compact design makes this an unobtrusive yet highly functional fixture you can use for multiple landscape, architectural, deck and dock lighting applications.

Options & Accessories - The INTEGRA-Liter is supplied with a standard clear lens. Optional amber, blue, green, red or spread lenses are also available. Optional lenses should be ordered as separate line items.

WS-0301-A (Optional Amber Lens)
WS-0301-B (Optional Blue Lens)
WS-0301-G (Optional Green Lens)
WS-0301-R (Optional Red Lens)
WS-0301-S (Optional Spread Lens)
Replace Lens after servicing.

Lamps - An LOQ20 (20W Bi-Pin Lamp) is supplied. The following alternate lamps are also available: -LOQ5, -LOQ10, -LOQ35.

Finishes - The INTEGRA-Liter is supplied in either a standard Black (-1) or Weathered Iron (-7) finish. Premium finishes are also available at a slight upcharge: Bronze (-4), Antique Verde (-AV), Native Green (-2), Verde Paint (-VP), Earthtone (-9), Tan (-3), Sandstone (-8), White (-W).

Black boxes indicate the shadow patterns produced. Once installed light will travel between the boxes and shadows will be cast in the corresponding direction of each box.
