

Electrical Accessories

Wire Connectors:

12-2Y	Pair of Scotch Locks used for connecting #12 or #18 stranded wires. Not recommended for direct burial in ground.
12-DB	Same as above, but for weatherproof direct burial. Includes epoxy packet. No solder or tape required.
1515-DB	ACE "DB" (Direct Burial) Connectors - Individual Pair
1515-30DB	ACE "DB" (Direct Burial) Connectors - Box of Thirty
1525-DB	ACE "DB" (Direct Burial) Connectors - Individual Pair
1525-10DB	ACE "DB" (Direct Burial) Connectors - Box of Ten
1525-25DB	ACE "DB" (Direct Burial) Connectors - Bulk Pack of 25
1321	1525-DB ACE Connector Shrink Tubing - 6 Pack
1538-DB	DUAL ACE "DB" (Direct Burial) Connectors - Individual Pair
1538-15DB	DUAL ACE "DB" (Direct Burial) Connectors - Bulk Pack of 15
1325	1538-DB DUAL ACE Connector Shrink Tubing - 4 Pack

12-Volt Adapters: All versions - No voltage change! Transformer MUST be used!

76-C-SCB	Converts 110V Candelabra socket to 12V Single-Contact Bayonet socket.
77-I-SCB	Converts 110V Intermediate socket to 12V Single-Contact Bayonet socket.
78-M-SCB	Converts 110V Medium socket to 12V Single-Contact Bayonet socket.
78-MR-SCB	Converts 110V Medium socket to 12V Bi-Pin socket.
79-MR-SCB	Converts 110V Medium socket to 12V MR-16 socket.

12-Volt Conversion Kit: All versions - No voltage change! Transformer MUST be used!

CK-912	Includes connectors, socket, cable, lamp (LO912), and epoxy. Converts unlit objects such as stone lanterns, fishing balls, etc., into 12V fixture with wedge base socket or changes existing 110V/240V fixture into 12V if space permits.
CK-93	Includes connectors, socket, cable, lamp (LO93), and epoxy. Converts unlit objects such as stone lanterns, fishing balls, etc., into 12V fixture with single-contact bayonet socket or changes existing 110V/240V fixture into 12V if space permits.

Banana Plugs:

BB-01F	Female quick connector used on the demo cable in DEMO-99.
BB-01M	Male quick connector used on the demo cable in DEMO-99.

Thermal Switch Protector:

78-40	Thermal Switch Temperature Protector makes already safe operating Nightscaping® well lights even safer by further insuring these fixtures operate within a safe temperature range.
-------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Inline Fuse Protector:

ILF-5A	Inline Fuse Protector with a 5Amp Fuse. Required for safe operation of fixtures with #18 lead wire exceeding standard length.
--------	-------------------------------------------------------------------------------------------------------------------------------

Mini-Torch:

TO-0403	Mini-Torch - Propane torch used to heat and seal ACE Connectors.
0403	Bottle of Propane refill for Mini-Torch.

Socket Saver:

0808-C	Socket Saver - Petroleum-based moisture inhibitor for 12V sockets.
