<http://www.nightscaping.com>

The Sagitta Catalinaliter is a larger version of Nightscaping's® Sagitta and comes mounted on a post. It's tall post and bright output of warm light makes it suitable for both traverse and converse lighting. The simple design can blend with many architectural styles and may be applied to paths, planter beds, patios, and more. Standard Lamp: 2-LOX1433 Xenon Wedge Base
